PROFESSIONAL SUMMARY

Final-year Computer Science Engineering student (CGPA 8.4, 2027) who has shipped a production web app for a live client and completed **six internships** across front-end development, cloud computing, data science, AI and ServiceNow. Builds with React, JavaScript and Python, uses Supabase as a backend and deploys on Render, Netlify and Vercel. Graded **A1** in automation testing (NSIC, Govt. of India) and part of an **Odoo Hackathon 2026 finalist team**. Looking for a software developer role where I can ship clean, working code from day one.

TECHNICAL SKILLS

Languages: Python, Java (OOP), JavaScript, SQL, C, HTML5, CSS3
Frameworks: React.js, Tailwind CSS, REST APIs, Flask
Cloud & Tools: Supabase (PostgreSQL), Render, Netlify, Vercel, Cloudflare, Grafana Cloud, Git, GitHub
Testing & Platforms: Automation Testing & Scripting, ServiceNow (Flow Designer, Automated Test Framework)
Core CS: Data Structures, OOP, DBMS, Software Engineering (SDLC, Agile), Software Testing

INTERNSHIP EXPERIENCE

ServiceNow Virtual Intern | ServiceNow University × SmartBridge (AICTE) *Jun 2026 – Jul 2026*
- Configured flows in Flow Designer, built reports and wrote automated tests with the Automated Test Framework (ATF); prepared for the Certified System Administrator (CSA) exam.

Front-End Development Intern | QSkill (SR India) *Jun 2026 – Jul 2026*
- Built and shipped a React + Tailwind CSS web app with client-side routing, from first prototype to production, working independently to deadlines.

Cloud Computing Intern | Tamizhan Skills (RISE Program) *Jun 2026*
- Deployed and monitored applications on Supabase, Render, Cloudflare and Grafana Cloud across the full deployment lifecycle.

Data Science & Analytics Intern | Tamizhan Skills (RISE Program) *Mar 2026*
- Worked on hands-on data analytics projects in Python, covering data cleaning, exploratory analysis and visualization.

AI Intern & Data Science Intern | CodTech IT Solutions *Jan 2025 – Jul 2025*
- **AI (Jun–Jul 2025):** built and trained machine learning models for real-world problems, iterating on performance feedback.
- **Data Science (Jan–Feb 2025):** worked across the pipeline, from data collection and preprocessing to modelling and visualization.

PROJECTS

Bhuvana – Saree Draping & Booking Website | Real Client Project · Live site *Live*
- Built and launched a production website for a live client with collection browsing, pre-order booking and update notifications, from requirements to launch.

InterCityGo – Intercity Cab Booking Platform | Final-Year Team Project *In Progress*
- Building a one-way intercity cab platform for Tamil Nadu routes with an admin console for vehicles, drivers and routes, using React, TypeScript, Tailwind CSS and Supabase (PostgreSQL).

AI-Powered ATS Resume Tracker
- Web app that sends a resume to an AI API and scores it against a job's requirements, handling the client–service request/response flow.

Skin Disease Detection System | Deep Learning · Published paper
- Developed a CNN-based app that classifies skin conditions from images and recommends precautions, from data preparation to a working prototype.

ACHIEVEMENTS & PUBLICATIONS

- **Odoo Hackathon 2026 – Finalist team**: selected for the national finale out of 20,000+ applicants.
- **2nd place, Byte Strike** – CYVESTA '26 national-level symposium, Dept. of Cybersecurity, Aalim Muhammed Salegh College of Engineering (Sep 2026).
- **1st place, TAGIFY** – Dept. of Information Technology, St. Peter's College of Engineering & Technology (Mar 2026).
- **Published paper**: "Skin Disease Detection using Deep Learning", NCNGERI-2026, Mailam Engineering College. Paper presentations at GENESIS '25 (SRM IST), TECHTRONIX 2K24 (IEEE), DEVXPO 2K24.
- **Member, IFERP** (Institute for Engineering Research and Publication).

EDUCATION

B.E., Computer Science and Engineering | St. Peter's College of Engineering & Technology, Chennai | **CGPA 8.4 / 10** *2023 – 2027*

CERTIFICATIONS

- **Automation Testing with Scripting** — NSIC, Ministry of MSME, Government of India · **Grade A1**
- **NPTEL**: Joy of Computing using Python (IIT Ropar, 85%) • Software Engineering (IIT Kharagpur) • Intro to Database Systems (IIT Madras)
- **Infosys Springboard**: SE Fundamentals • **IBM SkillsBuild**: Cloud, Cybersecurity, AI Fundamentals • **CodeTantra**: Python, C
